

## COMMUNITY DEMONSTRATION & INNOVATION GRANTS

### **2017 Community Demonstration & Innovation Grants:**

#### **Pembina Valley Child Care Centres, Morden**

Installed pour-in-place recycled rubber safety surfacing on a bicycle path and inside play area.

#### **R. M. of Yellowhead, Shoal Lake**

Installed pour-in-place recycled rubber safety surfacing at the Communiplex & RM Office steps and sidewalk areas.

#### **R. M. of Pembina, Manitou**

Installed pour-in-place recycled rubber safety surfacing at the Manitou Community Pool for the pool area, change rooms, and waterslide steps.

#### **Foyer Notre Dame, Notre Dame de Lourdes**

Installed pour-in-place recycled rubber safety surfacing on a walking path with seating areas.

#### **Univillage Preschool and Infant Centre, Winnipeg**

Installed pour-in-place recycled rubber safety surfacing on the entranceways.

#### **River East Transcona School Division - (Ecole Centrale)**

Installed pour-in-place recycled rubber safety surfacing on the playground area.

#### **R. M. of Gimli**

Repaired frost boil damage on a portion of Gimli Park Road by installing Tire Derived Aggregate.

#### **Gimli Children's Centre, Gimli**

Installed rubber safety surfacing on a bike path and play area.

#### **Winnipeg Montessori School, Winnipeg**

Installed recycled rubber mulch around a playground area.

#### **Forward House Ministries Inc., Winnipeg**

Installed pour-in-place rubber safety surfacing in the designated weight room, storage, and kitchen area.

#### **R. M. of Lac Du Bonnet**

Repaired frost boil damage on a portion of Red Deer Road by installing Tire Derived Aggregate.

#### **Ronald McDonald Housing Charities Manitoba – Pediatric Oncology Centre of Manitoba Inc., Winnipeg**

Removed the existing surface and installed recycled pour-in-place rubber safety surfacing on the playground area.

**Prairie Rose School Division – (Roland School)**

Refinished flowerbeds and perimeter of the garden with recycled rubber mulch.

**College St. Norbert Collegiate, Winnipeg**

Installed recycled tire checker plate smooth rubber mats in the locker room.

**Red River College, Winnipeg**

Conducting a study using Tire Derived Aggregate (TDA) as replacement for natural material in basement backfill applications.

## **2016 Community Grants:**

### **TLC Centre Inc., Carman**

Replaced the existing path in the preschool playground area with pour-in-place recycled rubber paving.

### **Grahamdale Development Corporation, Moosehorn**

Installed recycled rubber mats at each post to keep down debris & protect boats when moored in the marine.

### **Flin Flon School Division – (Ruth Betts Community School)**

Installed rubber mulch around the playground area.

### **Carberry Plains Community Centre, Carberry**

Replaced all the current matting and installed recycled rubber mats.

### **Transcona Jaycees Day Care Centre Inc., Winnipeg**

Replaced all the current flooring and installed pour-in-place recycled rubber safety surfacing.

### **Goulter School, Virden**

Replaced the surfacing of the outdoor basketball court with pour-in-place recycled rubber safety surfacing.

### **Glenlawn Collegiate, Winnipeg**

Replaced the old flooring in the weight room with recycled rubber safety surfacing mats.

### **Portage Regional Recreation Authority, Portage la Prairie**

Replaced the surface flooring of the fitness / weight area with recycled rubber safety surfacing mats.

### **R. M. of Grahamdale, Moosehorn**

Installed recycled rubber button pattern matting on the deck and walkways to prevent injuries caused by slipping.

### **Beautiful Plains School Division – (Neepawa Area Collegiate Institute)**

Installed recycled rubber matting for a health and wellness workout area.

### **Women's Health Clinic, Winnipeg**

Installed pour-in-place recycled rubber paving on walkways in the garden space.

### **St. Joseph the Worker School Inc., Winnipeg**

Installed pour-in-place recycled rubber surface on the play area.

### **R. M. of Two Borders – (Circuit 30 Fitness Club), Pierson**

Installed recycled rubber mats in the fitness area.

### **Lakewood Children's Centre Inc., Winnipeg**

Installed pour-in-place recycled rubber surfacing around the play structure area.

### **Lac du Bonnet Children's Centre Inc. (1988), Lac du Bonnet**

Installed recycled rubber pour-in-place surfacing on the front and back playground areas.

**Dauphin Regional Comprehensive Secondary School, Dauphin**

Installed recycled rubber mats in their fitness center area.

**Military Family Resource Centre – (Childcare Centre), Winnipeg**

Installed recycled rubber pour-in-place surfacing on a play area.

**St. Andrews Community Club, St. Andrews**

Replaced all arena skate flooring and bathroom hallways with recycled rubber floor mats.

**Lundar Day Care Inc., Lundar**

Installed pour-in-place recycled rubber surfacing on a bicycle path.

**Oakbank Kids Korner Cooperative Inc., Oakbank**

Installed pour-in-place recycled rubber surfacing on the children's outdoor play space.

**Town of Winnipeg Beach, Winnipeg Beach**

Resurfaced the community centre wheelchair ramps and curling club front sidewalk with pour-in-place recycled rubber surfacing.

**Prairie Children's Centres Inc., Winnipeg**

Installed pour-in-place recycled rubber surfacing on the play structure area.

**St. Claude Health District Foundation Inc., St. Claude**

Installed pour-in-place recycled rubber surfacing on a patio extension and a looping path to accommodate ambulatory, wheelchair clients and visitors.

**Steinbach Family Resource Centre, Steinbach**

Installed pour-in-place recycled rubber surfacing on a road safety training play yard.

**Concordia Child Care Centre, Winnipeg**

Installed pour-in-place recycled rubber surfacing in an area for infants and along paths in a preschool area.

**Town of Winnipeg Beach, Winnipeg Beach**

Repaired frost boil damage on Maple Avenue Road by installing Tire Derived Aggregate.

**2015 Community Grants:**

**Rolling River School Division – (Rivers Collegiate)**

Installed recycled rubber floor mats in the Fitness Room at Rivers Collegiate.

**Parish of St. Mary Magdalene, Winnipeg**

Installed rubber curbs to provide 16 handicap parking stalls.

**2011 Community Grants:**

**Stars of Promise Inc.** - This East Kildonan daycare received funding to replace their crumb rubber playground surface installed by the former Tire Stewardship Board with a new pour-in-place surface that uses fine mesh crumb rubber and resin mix to produce a durable and safe landing area for children in playgrounds.

**Town of Powerview** - Pine Falls - The town located in eastern Manitoba on the Winnipeg River received funding for a sidewalk resurfaced project using recycled rubber pads made from Manitoba tires to ensure their residents have safe durable walkways year round.

**Skylight Complex** - This East St. Paul community recreation center received funding to use crumb rubber for an indoor artificial turf field that benefits area youth and sports teams.

**University of Manitoba Campus Daycare Centre** received funding for a pour-in-place rubber safety surface project to ensure a safer playground for the children under their care.

## **2010 Community Grants:**

**Village of Dunnottar Rubber Sidewalk** - The Village of Dunnottar replaced crumbling and broken concrete sidewalks with rubber sidewalk panels as the concrete pads could not withstand the weight of septic trucks where they access holding tanks on a weekly basis. The rubber sidewalk panels provide an easy installation, repositioning and maintenance alternative for the community located on the west shore of Lake Winnipeg.

**Elmwood High School Track Upgrade** - 30 years after the extension of the adjacent street left the school's former track unusable and in disrepair, a new five-lane 400-metre asphalt rubber mix track was constructed at Elmwood High School with the support of the TSM community grants program. Over one thousand Manitoba tires were processed to produce the 7.28 tonnes of crumb rubber used in the track to offer a safe, accessible and durable surface for the school's track and field program.

**Fort Garry Lions Football Club** - The Fort Garry Lions Football Club received support from TSM to upgrade their football field's sideline drainage by installed crumb rubber tire-derived aggregate in the players' bench area.
