

Become a Tire Steward in Your School!

Did you know?

Tire Stewardship Manitoba is a non-profit organization working hard to prevent tire waste and reduce environmental impacts and health risks through proper tire storage and recycling.

Fast Facts!

Every year, 1 million new tires hit the road in Manitoba. That's a lot of tires!

There are 1,500 collection sites to recycle tires in Manitoba.

Tire Stewardship Manitoba's Community Demonstration Grant and Video

What is it?

One-time matching grants of up to \$20,000 are provided to Manitoba schools through the Tire Stewardship Manitoba (TSM) Community Demonstration Grant Program. Grants are available for the use of recycled tire products made from Manitoba tires in landscape, flooring, pathway, athletic track, playground and other projects.

Why should our school do a demonstration project?

Demonstration projects like this instill values and principles of reduce, reuse, recycle, repurpose, and rethink. These education for sustainable development topics are curriculum-linked. Actively engaging youth in community demonstration projects like this help them understand how to live sustainably and become effective stewards of our environment for the benefit of present and future generations.

When and how can I apply?

Applications are accepted year round and approved quarterly in March, June, September and December.

Visit our website at www.tirestewardshipmb.ca/tsm-for-schools to learn more about the TSM Community Demonstration Grant Program.

Tire Stewardship—It connects!

The following table illustrates a few of the many relevant sustainability-focused curricular connections wherein topics such as waste recycling/reduction can be taught within K-12 Education in Manitoba. An excellent learning resource video about tire recycling is available for download at www.tirestewardshipmb.ca/tsm-for-schools. Get it today!

Grade	Subject	Cluster
7	Science	Earth's Crust
7	Social Studies	Human Impact in the Americas Global Quality of Life
8	Social Studies	Active Democratic Citizenship
9	Science	Overall Skills and Attitudes
10	Social Studies	Natural Resources

Demonstrating School Action for Tire Stewardship

Opening ceremony of the Gordon Bell GreenSpace Development Project in Winnipeg.

The project was funded in 2012 by TSM's Community Demonstration Grant as it used crumb rubber with a newly installed Astro Turf field.
